

H1N1 Vaccine Clinic

What: H1N1 Vaccine Clinic

When: Saturday, December 12 - 9:00 AM until vaccine runs out (1500 doses or 4:00 PM)

Where: Davie Campus of Davidson Community College (1205 Salisbury Road, Mocksville)

Who: Everyone, including children over the age of 6 months

How: No appointment required – vaccine supply will be administered on a first come, first served basis after screening for the following:

(The nasal spray) - The H1N1 Live, attenuated nasal spray cannot be given to the following groups:

- Children younger than 2 years and adults 50 years and older
- Children younger than 5 years with asthma or one or more episodes of wheezing during the past year
- Pregnant women
- Anyone with allergies to eggs
- Anyone who has had a serious allergic reaction to any other influenza vaccine
- Anyone with any illness other than a minor cold or minor illness at the time of vaccination
- Anyone who has ever been diagnosed with Guillain-Barre Syndrome
- Anyone with a weakened immune system
- Anyone with a long-term health problem, such as heart disease, lung disease, kidney or liver disease, asthma, diabetes, anemia and other blood disorders
- Anyone with a history of asthma
- Anyone with certain muscle or nerve disorders that can lead to breathing or swallowing problems, such as cerebral palsy
- Anyone that will be in contact with anyone who have a severely weakened immune system (requiring care in a protected environment, such as a bone marrow transplant unit)
- Children or adolescents on long-term aspirin treatment
- Anyone who has received a seasonal influenza nasal spray within 28 days

(The shot) The Inactivated (killed virus) H1N1 influenza vaccine is given by injection. Those who should not receive this vaccine include anyone who:

- Is allergic to eggs
 - Has had a life-threatening allergic reaction after a dose of seasonal flu vaccine
 - Or has had a diagnosis of Guillain Barre Syndrome
-
-
